

HawkEye

Your NEW Diagnostic Tool
for Land Rover Vehicles

HawkEye Diagnostic Range Launch

Bearthmach are proud to announce the launch of its new HawkEye diagnostic range.

At the request of customers, in conjunction with our strategic partner, we are introducing a **robust hand held device suitable for home and trade use.**

HawkEye is a self contained unit that does not require a PC or laptop. It is powered direct from the vehicle.

It is easy to use, intuitive and user friendly, with a clear display, large function buttons and on screen prompts to provide a quick response.

The unit comes with an EOBD J1962 cable, with other cables available, if requirement.

The product is designed to be flexible. When purchased, it will be configured to suit a current vehicle type. When changing your vehicle, or assisting others, other vehicle types can be accessed by purchasing additional unlock codes.

Functionality includes:

- **Read and clear fault codes**
- **Live data**
- **Actuators**
- **Control modules**
- **And much more...**

The first phase is to be released on **1st March 2009**, to cover:

- **Defender (Up to 07),**
- **Freelander 1,**
- **Discovery 1,**
- **Discovery 2,**
- **Discovery 3,**
- **Range Rover classic,**
- **Range Rover P38A,**
- **Range Rover Sport.**

The second release, in mid 2009 will include:

- **Range Rover (L322),**
- **New Defender,**
- **Freelander 2**
